Summary

Web Developer with hands-on experience in building responsive web applications using React.js, JavaScript, Node.js, and Express.js. Experienced in developing full-stack applications, integrating REST APIs, and working with MySQL databases. Skilled in creating reusable UI components, debugging applications, and using Git/GitHub for version control. Strong problem-solving and adaptability skills with a focus on building user-friendly web solutions.

Technical Skills

- Frontend: HTML, CSS, JavaScript, React.js
- Backend: Node.js, Express.js, REST APIs
- Database: MySQL
- Tools: Git, GitHub, Figma

Soft Skills

- Problem-Solving
- Communication Skills
- Time Management
- Fast Learning & Adaptability

Experience

Web Developer Intern

Jan 2026 - June 2026

TVS Automobile Solutions Private LTD

- Developed and maintained responsive web applications
- Built clean, user-friendly UI using modern frontend technologies
- Fixed bugs and improved performance and usability
- Integrated APIs for dynamic data handling
- Collaborated with team using Git workflows

Front-End Developer Intern

June 2025 - July 2025

Cognifyz Technology

- Developed responsive web applications using HTML, CSS, JavaScript, and React
- Built reusable UI components and improved user experience
- Integrated REST APIs for dynamic data rendering
- Worked on real-time frontend tasks and debugging
- Followed Git-based version control workflows

Projects

CashewHub - Full-Stack E-Commerce

Web Application

- Full-Stack Architecture: Built a production-ready e-commerce platform with a customer-facing shop and a comprehensive Admin Panel using React.js, Node.js, Express.js, and MySQL.
- Core Business Logic: Implemented secure REST APIs for dynamic cart workflows, inventory tracking, coupon validations, and soft-delete states.
- Cloud & Deployment: Integrated Cloudinary for media management and successfully deployed the scalable frontend on Vercel and backend services on Render via Git.

Job Portal Web Application

- Developing a full-stack job portal utilizing React.js, Node.js, and Express.js to streamline recruitment workflows for seekers and recruiters.
- Implementing core frontend UI and secure authentication modules for user login and profile registration.
- Integrating RESTful APIs for real-time job listings, search filtering, and application tracking workflows.

JK Café – Coffee Shop Website

- Developed a responsive coffee shop web interface using React.js and modern CSS to showcase brand identity and menu offerings.
- Engineered clean, reusable UI components for highlighting artisan coffee, pastries, and customer testimonials.
- Optimized page layout and cross-browser responsiveness to improve overall user engagement and browsing experience.

Education

B.Tech – Computer Science and

Business Systems

2022 - 2026

Sethu Institute of Technology

Achievements

- Secured 2nd Place in State-Level Inter-Engineering College Cricket Tournament at Kamaraj College (July 2023)
